State Involvement

Priority Justification and State Comments Regarding:

☒ PA ☐ SI ☐ Follow-up SI ☐ RPS ☐ HRS

This site is adjacent to and north of the Midco II NPL site currently undergoing a remedial investigation.

The actual site as listed in CERCLIS is owned by Penn Central and serves as a right-of-way. We have no information indicating that dumping specific only to this right-of-way and not the Midco II site has ever occurred. Contamination of this property is most likely attributable to past practices at Midco II.

Considerable sampling has been completed on the ditch adjacent to both properties. Groundwater monitoring of the site and sampling of residential wells has been conducted as part of the remedial investigation.

We see no reason to duplicate efforts already being performed as part of a remedial investigation at Midco II. No further action is necessary at this time.

STATE INVOLVEMENT

☒ Preliminary Assessments ☐ Site Inspection ☐ Follow-up Site Inspection
☐ Responsible Party Search ☐ Hazard Ranking System (HRS)
